PROXY STATEMENT

INTRODUCTION

The enclosed Proxy is solicited on behalf of the Board of Directors of the Company for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. This Proxy Statement and the enclosed Proxy will be mailed on or about March 12, 2007, to shareholders of record of the Company's Common Stock and Class B Common Stock as of the close of business on February 23, 2007.

At the Annual Meeting, holders of the Company's Common Stock, \$3.00 par value per share ("Common Stock"), and Class B Common Stock, \$3.00 par value per share ("Class B Common Stock"), will be asked to: (i) set the number of directors at six and elect six individuals to the Board of Directors for a term of one year each, and (ii) transact any other business that may properly come before the meeting.

The Board of Directors recommends that the Company's shareholders vote FOR setting the number of directors at six (6) and electing the six (6) nominees for director.

RECORD DATE, VOTE REQUIRED AND RELATED MATTERS

The Board has fixed the close of business on February 23, 2007, as the Record Date for the determination of shareholders entitled to notice of, and to vote at, the Annual Meeting. Each outstanding share of Common Stock is entitled to one vote, and each outstanding share of Class B Common Stock is entitled to 20 votes, exercisable in person or by properly executed Proxy, on each matter brought before the Annual Meeting. Cumulative voting is not permitted. As of February 23, 2007, 12,112,819 shares of Common Stock, representing 12,112,819 votes, were held of record by approximately 4,850 shareholders (including an estimated 4,300 shareholders whose shares are held in nominee names, but excluding 921 participants in the Company's 401(k) Plan who may direct the voting of shares allocated to their accounts), and 829,825 shares of Class B Common Stock, representing 16,596,500 votes, were held by 13 shareholders, together representing an aggregate of 28,709,319 votes.

Shares represented at the Annual Meeting by properly executed Proxy will be voted in accordance with the instructions indicated therein unless such Proxy has previously been revoked. If no instructions are indicated, such shares will be voted **FOR** setting the number of directors at six (6) and electing the six (6) nominees for director.

Any Proxy given pursuant to this solicitation may be revoked at any time by the shareholder giving it by delivering to the Secretary of the Company a written notice of revocation bearing a later date than the Proxy, by submitting a later-dated, properly executed Proxy, or by revoking the Proxy and voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, in and of itself, constitute a revocation of a Proxy. Any written notice revoking a Proxy should be sent to The Dixie Group, Inc., P.O. Box 25107, Chattanooga, Tennessee 37422-5107, Attention: Starr T. Klein, Secretary.

The persons designated as proxies were selected by the Board of Directors and are Daniel K. Frierson, J. Don Brock and John W. Murrey, III. The cost of solicitation of Proxies will be borne by the Company.

The presence, in person or by Proxy, of the holders of a majority of the aggregate outstanding vote of Common Stock and Class B Common Stock entitled to vote is necessary to constitute a quorum at the Annual Meeting. The affirmative vote of a plurality of the total votes cast that are represented in person or by Proxy at the Annual Meeting is required to elect the Board of Directors' nominees.

Shares covered by abstentions and broker non-votes, while counted for purposes of determining the presence of a quorum at the Annual Meeting, are not considered affirmative votes. Abstentions and broker non-votes will have no effect upon the election of a nominee for director, so long as such nominee receives any affirmative votes.

A copy of the Company's Annual Report for the year ended December 30, 2006, is enclosed herewith.

The Board is not aware of any other matter to be brought before the Annual Meeting for a vote of shareholders. If, however, other matters are properly presented, Proxies representing shares of Common Stock and Class B Common Stock will be voted in accordance with the best judgment of the proxyholders.

Members of the Compensation Committee are Lowry F. Kline, Chairman, Walter W. Hubbard, and John W. Murrey, III. The Compensation Committee administers the Company's compensation plans, reviews and may establish the compensation of the Company's officers, and makes recommendations to the Board of Directors concerning such compensation and related matters. The Compensation Committee met four (4) times in 2006.

The Committee does not have a written Charter. The Committee's authority is established by resolution adopted by the Company's board of directors. In accordance with that resolution, the Committee has been granted the authority to review and establish compensation for each of the Company's executive officers and directors and may recommend to the board, for its approval, and for shareholder approval, when required, compensation plans and compensation amounts for such executive officers.

The Committee may request recommendations from the Company's management concerning the types and levels of compensation to be paid to the Company's executive officers. Additionally, the Committee is authorized to engage compensation consultants and may review and consider information and recommendations of compensation consultants otherwise engaged by the Company or the Board of Directors in connection with the assessment, review and structuring of compensation plans and compensation levels. For a description of the Committee actions with respect to Compensation of Executive Officers in 2006, see Compensation Discussion and Analysis—Compensation for 2006.

The Board of Directors has no standing nominating committee. The Board of Directors believes that, as a result of the role of the independent directors, as described below, it is not necessary to have a nominating committee at this time.

The Board selects nominees for election as director from persons approved and recommended by a majority of the independent directors. In selecting nominees for director, the Board does not operate pursuant to a charter; however, the Board has adopted a resolution addressing the nominations process. Each member of the Board is independent, as defined by the applicable rule of the NASD, except for Daniel K. Frierson and Paul K. Frierson.

The independent directors may recommend director nominees to the full Board for approval, and only nominees approved by a majority of the independent directors are recommended to the full Board for approval. In selecting and approving director nominees, the independent directors will consider, among other factors, the existing composition of the Board and their evaluation of the mix of Board members appropriate for the perceived needs of the Company. The independent directors believe continuity in leadership and board tenure maximizes the Board's ability to exercise meaningful board oversight. Because qualified incumbent directors are generally uniquely positioned to provide stockholders the benefit of continuity of leadership and seasoned judgment gained through experience as a director of the Company, the independent directors will generally consider as potential candidates those incumbent directors interested in standing for re-election who they believe have satisfied director performance expectations, including regular attendance at, preparation for and meaningful participation in Board and committee meetings.

The independent directors of the Board also consider the following in selecting the proposed nominee slate:

- at all times, at least a majority of directors must be "independent" in the opinion of the Board as determined in accordance with Nasdaq standards;

-
- at all times at least three members of the Board must satisfy the heightened standards of independence for Audit Committee members; and
 - at all times the Board should have at least one member who satisfies the criteria to be designated by the Board as an “audit committee financial expert.”

Generally, the Board will consider stockholder recommendations of proposed director nominees if such recommendations are serious and timely received. To be timely for inclusion at the 2008 Annual Meeting, recommendations must be received in writing at the principal executive offices of the Company before the close of business on November 19, 2008. In addition, any stockholder director nominee recommendation must include the following information:

- the proposed nominee’s name and qualifications and the reason for such recommendation;
- the name and record address of the stockholder(s) proposing such nominee;
- the number of shares of stock of the Company which are beneficially owned by such stockholder(s); and
- a description of any financial or other relationship between the stockholder(s) and such nominee or between the nominee and the Company or any of its subsidiaries.

In order to be considered by the Board, any candidate proposed by one or more stockholders will be required to submit appropriate biographical and other information equivalent to that required of all other director candidates.

During 2006, no director attended fewer than 75% of the total number of meetings of the Board of Directors and any Committee of the Board of Directors on which he served. All directors are invited and encouraged to attend the annual meeting of shareholders. In general, all directors attend the annual meeting of shareholders unless they are unable to do so due to unavoidable commitments or intervening events. Of the six (6) incumbent directors who were serving on the Board at that time, all six (6) attended the 2006 annual meeting of shareholders.

Directors who are employees of the Company do not receive any additional compensation for their services as members of the Board of Directors. Non-employee directors receive an annual retainer of \$12,000 cash and \$12,000 in value of Performance Units under the Directors Stock Plan. In addition to the annual retainer, directors who are not employees of the Company received \$1,500 for each Board meeting attended and \$1,000 for each committee meeting attended (\$1,500 for the Committee Chairman). Fees for attending telephonic meetings are one-half those for in-person meetings, such that each non-employee director receives \$750 per telephonic board meeting and \$500 per committee meeting (\$750 for the Chairman of the Committee). For an additional discussion of Director Compensation, see the tabular information below under the heading, “Director Compensation.”

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, and regulations of the Securities and Exchange Commission (“SEC”) thereunder, require the Company’s executive officers and directors and persons who beneficially own more than 10% of the Company’s Common Stock, as well as certain affiliates of such persons,

to file initial reports of such ownership and monthly transaction reports covering any changes in such ownership with the SEC and the National Association of Securities Dealers. Executive officers, directors and persons owning more than 10% of the Company's Common Stock are required by SEC regulations to furnish the Company with all such reports they file. Based on its review of the copies of such reports received by it and written representations that no other reports were required for such persons, the Company believes that, during fiscal year 2006, all filing requirements applicable to its executive officers, directors, and owners of more than 10% of the Company's Common Stock were complied with.

Certain Transactions Between the Company and Directors and Officers

The Company's Audit Committee has adopted written policies and procedures concerning the review, approval or ratification of all transactions required to be disclosed under the SEC's Regulation S-K Rule 404. These policies and procedures cover all related party transactions required to be disclosed under the SEC's rules as well as all material conflict of interest transactions as defined by relevant state law and the rules and regulations of NASDAQ that are applicable to the Company.

These policies and procedures require that all such transactions must be identified by management and disclosed to the Company's Audit Committee for review and, if required, approval or ratification. Full disclosure of the material terms of any such transaction must be disclosed to the Committee, including

- the parties to the transaction and their relationship to the Company, its directors and officers;
- the terms of the transaction, including all proposed periodic payments; and
- the direct or indirect interest of any related parties or any director, officer or associate in the transaction.

To be approved or ratified, the Committee must find any such transaction to be fair to the Company. Prior approval of such transactions must be obtained generally, if they are material to the Company. If such transactions are immaterial, such transactions may be ratified and prior approval is not required. Ordinary employment transactions may be ratified.

D. Kennedy Frierson, Jr., the son of Daniel K. Frierson, the Company's Chief Executive Officer and Chairman of the Board, and the nephew of director Paul K. Frierson, is employed as President of Masland Residential and is a Vice President of the Company. Mr. Frierson received an annual base salary of \$190,000 in 2006, and received a cash incentive of \$55,000, pursuant to the Company's 2006 Incentive Compensation Plan. Such incentive was awarded based on Mr. Frierson's business unit results and his performance for 2006, but paid in February 2007, in accordance with the terms of the Plan. Also pursuant to the Plan, on March 2, 2007, Mr. Frierson was granted an award of 6,841 Long-Term Incentive Shares and 2,898 Career Shares. Pursuant to Mr. Frierson's election, 9,087 of the total awards were taken as shares of Class B Common Stock. Mr. Frierson will participate in the Company's incentive compensation program established for 2007. Under the terms of the Plan for 2007, Mr. Frierson has the opportunity to earn a cash Incentive Award, a Long-Term Incentive Award, and Career Shares.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee of the Board of Directors is composed of four members, each of whom is an independent, non-employee director. The Audit Committee operates under a written Audit Committee Charter adopted and approved by the Board of Directors. The Charter is reviewed at least annually by the Committee. While the Committee has the responsibilities and powers set forth in its written charter, it is not the duty of the Committee to plan or conduct audits. This function is conducted by the Company's management and its independent accountants.

The Committee has reviewed and discussed with management the audited financial statements of the Company for the year ended December 30, 2006 (the "Audited Financial Statements"). In addition, the Committee has discussed with Ernst & Young LLP the matters required by Statement on Auditing Standards No. 61.

The Committee also has received the written report, disclosure and the letter from Ernst & Young LLP required by Independence Standards Board Statement No. 1, and the Committee has reviewed, evaluated, and discussed with that firm the written report and its independence from the Company. The Committee also has discussed with management of the Company and the auditing firm such other matters and received such assurances from them as the Committee deemed appropriate.

Based on the foregoing review and discussions and relying thereon, the Committee has recommended to the Company's Board of Directors the inclusion of the Audited Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 30, 2006, to be filed with the Securities and Exchange Commission.

For a brief list of Mr. Murrey's relevant experience, please refer to the Election of Directors section of this proxy statement.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee of the Board of Directors sets compensation for the Company's executive officers. Decisions made by the committee are reported to and reviewed by the Board of Directors. The Compensation Committee currently consists of three independent directors chosen annual by the Board.

Compensation of the Company's executive officers is competitive with compensation offered by other companies generally similar to the Company in size and lines of business. In determining what types and levels of compensation to offer, the Company reviews publicly available data and, from time to time, receives advice and information from professional compensation consultants.

The Elements of Executive Officer Compensation

Compensation for each of the Company's executive officers consists generally of the following elements: base salary; annual cash incentives; stock plan awards; retirement plan benefits and other benefits. Compensation is intended to be competitive and in the median range of compensation for comparable companies. A significant portion of each executive's compensation consists of equity awards designed to align the interests of executive officers with the interests of the Company's shareholders.

For 2006, each executive officer's compensation consisted of base salary, and the opportunity to earn a cash incentive award and awards of restricted stock as well as customary retirement and other benefits. The Compensation Committee determined the range of potential cash and equity incentive awards that could be earned, the performance criteria for determining the amount earned by each executive, and the form in which awards would be paid.

Base Salary

Base salary levels depend on a variety of factors, including qualifications and experience, duties and responsibilities, and the competitive market for executive talent.

Cash Incentive Awards

All cash incentive awards were designed as a percentage of each executive's base salary at the beginning of the year. For executive officers whose responsibilities are primarily related to the operations of one or more business units, the cash incentive award component provided each participant with the opportunity to earn a cash payment ranging from 16.67% to 75% of such participant's base salary with 50% of the award based on achievement of certain levels of earnings before interest and taxes from continuing operations ("EBIT") for their business unit, 20% based on the Company's EBIT and 30% based on individual goals set by the Committee; provided, that awards based on individual goals are also contingent on meeting one or both of the EBIT performance goals.

For the Chief Executive Officer and all executive officers whose responsibilities are primarily related to corporate-level administration, the cash incentive award component provided each participant with the opportunity to earn a cash payment ranging from 16.67% to 75% of such participant's base salary with 60% of the amount of the cash award based on the achievement of certain levels of Company EBIT and 40% of the amount based on achievement of individual performance goals set by the Committee, provided, that awards based on individual goals are also contingent on meeting the Company's EBIT goals.

In 2006, cash incentive awards were made to the Company's executive officers in the aggregate amount of \$110,000. As disclosed in the Summary Compensation Table, one of the Company's Named Executive Officers received an award under the Plan.

Although other possible measures of performance were considered, corporate and business unit EBIT was used as the primary measure of performance because the Committee believed that EBIT provided a highly relevant measure of performance that could be applied to each of the Company's business units and to the Company as a whole.

Primary Long-Term Incentive Share Awards and Career Shares.

The 2006 Incentive Plan provided for two possible awards of restricted stock: Primary Long-Term Incentive Share Awards and Career Shares.

The Primary Long-Term Incentive Share Award was made in restricted shares to each executive officer, in value equal to 35% of the executive's base salary at the beginning of the year plus any cash incentive award paid for such year. Career Shares were awarded to each executive officer as an award of restricted stock valued at 20% of such officer's base salary as of the beginning of the year. The number of shares issued were based on the market price of the Company's Common Stock at the time of grant of the award—March, 2007.

Primary Long-Term Incentive Share Awards vest pro rata over 3 years. Career Share Awards vest when the participant becomes (i) qualified to retire from the Company and (ii) has retained the Career Shares for 24 months following the grant date. Both types of awards are subject to accelerated vesting or forfeiture as described below.

Special Conditions to Awards

Grant of the Primary Long-Term Incentive Share and Career Share Awards was contingent on the Company's achieving a positive income from continuing operations. Death, disability or a change in control of the Company will result in immediate vesting of all restricted stock issued as Primary Long-Term Incentive Share or Career Share Awards. Termination without cause will result in immediate vesting of all Career Share Awards, and acceleration of vesting of Primary Long-Term Incentive Shares Awards to the extent such shares have been expensed by the Company. Voluntary termination of employment prior to retirement, or termination of employment for cause will result in the immediate forfeiture of all unvested awards. Upon an executive's retirement, vesting will accelerate to the extent that the Company has recognized compensation expense related to the shares subject to the awards.

Retirement Plans and Other Benefits

The Company's compensation for its executive officers also includes the opportunity to participate in two retirement plans, one qualified and one non-qualified for federal tax purposes, and certain health insurance, life insurance, relocation allowances, and other benefits. Such benefits are designed to be similar to the benefits available to other exempt, salaried associates of the Company, and to be comparable to and competitive with benefits offered by business with which the Company competes for executive talent.

Executive officers may elect to contribute a limited amount of their compensation to the qualified plan and make deferrals into the non-qualified plan (up to 90% of total compensation). Such officers may receive contributions from the Company into the two plans in an aggregate amount equal to up to 3% of their cash compensation. Participants may receive additional contributions from the Company based primarily on the Company's return on equity.

Compensation for 2006

In setting compensation of the Named Executive Officers for 2006, the Committee employed Towers Perrin as consultants to provide information concerning competitive compensation levels and current compensation trends. In performing its analysis, Towers Perrin reviewed publicly available compensation information for the companies that comprise the "peer group" to which the Company compares its stock performance as set forth in the Stock Performance Graph included in this year's Annual Report to Shareholders. Towers Perrin also compared the Company's executive compensation to a broader survey group, whose information they felt would be comparable to that of the Company. The Committee also received recommendations from management concerning levels of compensation and types and structure of compensation.

As a result of its review, the Committee determined that the level of direct cash compensation offered to the Company's executive officers was near the median of such compensation for the Company's competitors, but that its long-term incentives were below median levels, particularly in the case of the Company's chief executive officer. In February 2006, the Committee redesigned the Company's long-term incentive compensation plan to provide a cash incentive and the two types of restricted stock awards described in more detail, above: long-term incentive shares and career shares. The long-term incentive shares were designed to provide an incentive to remain with the Company during the three-year vesting period of the awards and encourage achievement of target levels of operating performance as measured by earnings before interest and taxes. The career shares were designed to provide an incentive to remain with the company until retirement at which time such awards vest. Payment of all awards was made contingent on the profitability of the Company. In May 2006, the Committee adjusted the base salaries of the Company's executive officers to keep such salaries at or near median levels for comparable companies.

The tax effect of possible forms of compensation on the Company and on the executive officers is a factor used in determining types of compensation. Similarly, the accounting treatment accorded various types of compensation is a factor used to determine compensation. Because of the possible deductibility limitations imposed by relevant IRS regulations, the Company sought shareholder approval of the types of goals that could serve as the basis for incentive awards for 2007-11. Compensation resulting from 2006 awards was anticipated to be below levels affected by the IRS deductibility limits.

Restricted Stock Award to Chief Executive Officer

During 2006, the Compensation Committee approved a Restricted Stock Award for the Company's Chief Executive Officer. The Award is intended to retain and motivate the CEO over the term of the award (seven years) and to bring his long-term incentive compensation package closer to median levels for Chief Executive Officers of comparable companies. The Committee considered the contributions of the Chief Executive Officer

to the Company's positive results over the past several years and its successful transition into the carpet industry, among other factors, in deciding to grant the award. As noted above, the Committee engaged a consultant to assist it in reviewing comparable executive officer compensation and in structuring the award.

The award consists of an aggregate of 125,000 shares of Restricted Stock. At Mr. Frierson's election, such award consists of 119,873 shares of Class B Common Stock and 5,127 shares of Common Stock. Vesting of the award is subject to both a market condition—the price of the Company's Common Stock must equal or exceed \$18.225 over any 20 consecutive trading days prior to June 1, 2011—and a continued service condition—Mr. Frierson must be continuously employed by the Company or an affiliated company as a director or executive officer of the Company or an affiliated company until 2013, and as an executive officer until at least 2011. Shares subject to this award vest in substantially equal annual installments beginning June 6, 2008 (or the first date thereafter that the market condition is met) and ending June 2013.

In the event of a change of control during Mr. Frierson's employment and prior to June 6, 2013, 100% of the award vests immediately. In the event of termination of employment on account of death or disability at any time during the term of the award the continued service condition will be deemed to have been met (to the extent the Award has not been forfeited) and vesting of the Award will accelerate when the market condition is met. In the event of termination of employment on account of retirement or involuntary termination without cause prior to June 6, 2013, the continued service condition will be deemed to have been met to the extent the award has been expensed by the Company and vesting of the Award will accelerate when the market condition is met. In the event of involuntary termination of employment by the Company, for cause, the non-vested portion of the award will be forfeited. If the market condition is not met by June 6, 2011, all shares granted under the award will be forfeited.

2007-2011 Incentive Compensation Plan

In March 2006, the Compensation Committee approved the 2007-2011 Incentive Compensation Plan, pursuant to which annual incentive compensation awards may be made to key executives (including the Named Executive Officers) of the Company based on results achieved by the Company. The material terms of the performance goals of the plan were approved by the Company's shareholders at the 2006 Annual Meeting. Awards granted under the Plan may be treated as performance-based compensation under relevant Internal Revenue Code regulations and will allow the Company to take a federal income tax deduction for the related compensation expense if such awards are based on one or more of the approved performance goals.

The plan is administered by the Compensation Committee which will determine the type, range of potential awards and performance criteria for determining awards.

Both cash incentive awards and stock based incentive awards may be made under the plan. The annual performance goals will include one or more of the following criteria determined annually in the discretion of the Committee: minimum annual levels of profitability; corporate and/or business unit EBIT levels, total shareholder return, return on capital; return on equity; pre-tax earnings; after-tax earnings, earnings growth, operating income; operating profit; earnings per share and return on investment or working capital, any one or more of which criteria may be measured with respect to the Company, or any one or more of its subsidiaries or business units.

At its February meeting, the Committee approved the Incentive Compensation Plan for 2007 and set performance goals for the Company's executive officers. The plan is structured to provide similar incentives to those provided by the 2006 Incentive Compensation Plan, but the cash incentive award that may be earned under the plan ranges from 10% to 75% of the participant's base salary.

Termination Benefits

As discussed above under Special Conditions to Awards and Restricted Stock Award to Chief Executive Officer, such restricted stock awards provide for acceleration of vesting of awards under certain circumstances upon termination of the participants.

Upon retirement of the Participant, all restricted stock awards made under the Company's 2004 incentive compensation plan vest to the extent such awards have been expensed. As of year end, Messers Frierson, Polley and Harmon were eligible for retirement in accordance with the terms of the restricted stock awards. If such persons had retired at year end, the number of shares subject to such awards that would have vested and the value of such shares would have been: Frierson – 7,324 shares (\$92,575); Harmon – 1,393 shares (\$17,608); and Polley – 1,326 shares (\$16,761).

For purposes of valuing the foregoing awards, the Company used the year-end market value of the Company's Common Stock of \$12.64/share.

No termination benefit was paid to or accrued for any Named Executive Officer in the fiscal year ended December 30, 2006.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis, set forth above, with management.

Based on our review and the discussions we held with management, we have recommended to the board of directors that the Compensation Discussion and Analysis be included in the Company's Proxy Materials.

Respectfully submitted,

Lowry F. Kline, Chairman
John W. Murrey, III
Walter W. Hubbard
