Dixie Group Business Drivers

- The residential flooring market is driven by remodeling, existing home sales and new construction of single family and multifamily housing.
- Our residential business plays primarily in the mid to high end residential replacement segment, dependent upon consumer confidence, the health of the stock market and the wealth effect.

New and Existing Home Sales

Seasonally Adjusted Annual Rate

THE DIXIE GROUP

- "December saw sales retreat, but the pull back was more a sign of supply constraints than an indication of a weakened demand for housing. Sales for the entire year finished strong, reaching the highest annual level since 2006."
- "This year, consumers should prepare to endure some increases in mortgage rates," Yun cautioned. "I also expect home prices to grow more moderately by 3% to 5% in 2022, and then similarly in 2023 as more supply reaches the market."
